

TIGERLILY FOUNDATION Membership Benefits

The Tigerlily Foundation (Tigerlily) is a 501c3 breast cancer foundation, dedicated to educating, advocating, empowering and providing hands-on support to young women – before, during and after breast cancer.

Tigerlily is dedicated to reaching young women, their families, health advocates and the community, to help young women become their own best advocates. We realize that together, we can change how people view the issue of young women and breast cancer on the local, national and global scale.

Tigerlily also aims to educate young women about their breast health, to ensure early detection and treatment. Young women need to have equal access to care and be able to afford and access quality care – during and after treatment.

Tigerlily is leading a movement of young breast cancer survivors and their loved ones by giving hope, inspiration and empowerment to every individual. You have the power to end the disparities young women face and to help them with much-needed resources as they navigate treatment and beyond. With your financial support and action, we can do this. We hope you join us as a member and help save lives.
